CHF 1'740.--

300 mm extension

Allows 300 mm of additional backfill height to be placed between the dome and the height adjuster.

CHF 349.-- (Item. N° 371003)

Ø 63 mm wall passage

Special structure for drinking water

CHF 41.-- (Item. N° 330035)

Characteristics

Capacity (liters)	Length (mm)	Width (mm)	Height without dome (mm)	Height with dome (mm)	Weight (kg)	Item (N°)	Price excluding VAT (CHF)
1'500	2'100	1'250	700	1'015	80	390600	1'496.--
3'000	2'450	2'100	735	1'050	170	390601	2'571.--
5'000	2'890	2'300	950	1'265	240	390602	3'643.--
7'500	3'600	2'250	1'250	1'565	360	390603	5'139.--

Technical data

- Polyethylene monobloc tank certified food grade.
- Load capacity: Vehicles of less than 2.2 t with cast iron cover
- The "vehicles" overload on the pedestrian cover N° 381540 is not allowed.
- The pedestrian cover withstands a momentary load of 150 kg and a permanent load of 50 kg.
- The maximum depth of immersion in the water table is 80 cm with minimum covering of 80 cm.
- Set up : According to the manufacturer's guidelines.

Tank modifications and adaptations in Canplast workshops

- Welding fittings for inlet or outlet pipes is possible in our manufacturing workshop.
- The position and diameter of the fittings are adapted to the client's specifications. It is also possible to install a drain plug and strainers.
