

Rotomoulded above-ground tanks

Vertical cylindrical tanks

Made of reinforced rotomoulded polyethylene. Especially designed to collect rainwater in homes or industrial buildings. Thick wall, impact and U.V. resistant.

Equipment

Ø 450 mm manhole in the centre of the 9'000-litre tank and on the side of the 3'000 to 6'000-liters tanks. Colour : black (prevents the formation of algae).

Capacity (Liters)	Ø (mm)	Height (mm)	Item (N°)	Weight (kg)	Price excluding VAT (CHF)
2'000	1'400	1'675	327041	62,5	1'632.--
3'000	1'400	2'290	327042	82,5	2'179.--
4'000	1'700	2'190	327043	132,5	2'608.--
6'000	2'100	2'150	327045	182,5	3'923.--
9'000	2'600	2'350	327047	252,5	5'229.--

Horizontal cylindrical tanks

Made of reinforced rotomoulded polyethylene, impact and U.V. resistant. An electric pump can be mounted directly on the 500-liters tank.

500 liters

Capacity (Liters)	Length (mm)	Width (mm)	Height (mm)	Ø dome (mm)	Color	Item (N°)	Weight (kg)	Price excluding VAT (CHF)
400	1'000	750	820	350	Black	327010	18	579.--
500	1'050	750	820	470	Blue	327011	22	664.--

2'000	2'000	1'250	1'260	400	Black	327052	108	1'637.--
3'000	2'150	1'450	1'440	400	Black	327053	144	2'179.--

Parallelepipedic tanks of 1'700 liters

Made of reinforced rotomoulded polyethylene, impact and U.V. resistant. Tanks, of small width, adapting easily in cellars.

Standard equipment

- 2 steel rings
- 1 dome with Ø 450mm manhole
- 1 inlet and 1 outlet Ø 110 mm on dome
- 2 outlets Ø 110 mm at the bottom

Dimensions

Length: 1730 mm

Width without rings: 780 mm

Height without dome: 1410 mm

Weight: 96 kg

Width with rings: 815 mm

Height with dome: 1660 mm

Tank

art N° 327020

CHF 1'293.00 / per unit

Twinning set

art N° 327805

CHF 140.00 / per unit

Including: 1 pipe Ø 110mm, 2 clamps and 2 fasteners.

All tanks must be emptied in winter when installed outdoors.

«2 tanks 1'700 liters with twinning set».
